"PLAN TO MAKE AMERICA BEAUTIFUL"

## Tree Farming

### PLAN AND PLANT A CHRISTMAS TREE FOREST

Offering special listings—FREE PACKING AND PREPAID DELIVERY. Your discount—5% to 10%.

We believe the species listed to be the best for home and Christmas tree plantation planters (50 years experience).

Our prices when compared are 20% to 35% lower than others. We are one of the few nurseries in New York State offering low priced evergreens at economical prices.

A few years ago we advised that a Christmas tree plantation could pay up to \$1,000 per acre. We now advise that when suitable varieties are planted that your "hobby" could yield up to \$2,000 per acre.

In some locations Scotch Pine is being over-planted for Christmas trees sold in the local market. Some of the following varieties seem to be in greater demand—VIS: Blue, Norway, and White Spruce, Douglas Fir, etc.

The demand for Christmas decorations will increase each year with the increase in population. This is your opportunity.

**Terms and Conditions**—We offer only fresh dug stock, the roots of our trees are protected at all times from sun and wind. Consult our lists for prices covering the amount of trees you wish to purchase. Orders accepted for \$5.00 or over ONLY. Tree orders of 5,000 or more take a 10% discount.

**PLAN AND PLANT A CHRISTMAS TREE FOREST.** We have had experience with a few such plantations that paid off very well indeed.

#### List No. 1:

| Specie                                                                                           | Age     | Size       | Per 50  | Per 100 | Per 500 | Per 1000 |
|--------------------------------------------------------------------------------------------------|---------|------------|---------|---------|---------|----------|
| SCOTCH PINE                                                                                      | 2 years | 2-3 inches | \$ 2.00 | \$ 3.00 | \$12.50 | \$20.00  |
| Pouplar and fast growing Christmas tree.                                                         |         |            |         |         |         |          |
| RED PINE                                                                                         | 2 years | 2-4 inches | 2.50    | 3.50    | 13.50   | 22.00    |
| YOUR CASH DISCOUNT IS YOUR PREPAID DELIVERY.                                                     |         |            |         |         |         |          |
| WHITE PINE                                                                                       | 2 years | 1-2 inches | 2.00    | 3.00    | 12.50   | 20.00    |
| Fast growing Pine, used timber and ornamental.                                                   |         |            |         |         |         |          |
| NORWAY SPRUCE                                                                                    | 2 years | 2-4 inches | 2.00    | 3.00    | 12.50   | 20.00    |
| Very popular fast growing Christmas tree used for timber, wood pulp and ornamental.              |         |            |         |         |         |          |
| COLORADO BLUE SPRUCE                                                                             | 2 years | 1-3 inches | 2.00    | 3.00    | 12.50   | 20.00    |
| A stand-by ornamental lawn tree, high price Christmas tree. Past season we paid \$5.00 stumpage. |         |            |         |         |         |          |
